## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

**DETAILED ACTION*****Response to Arguments***

Applicant's arguments filed February 12, 2007 have been fully considered but they are not persuasive.

Regarding applicant's argument on page 3 pertaining to the rounded corners, where applicant argues that the specification describes the rounded corners providing a particular function for solving a particular problem; applicant attention is directed to MPEP 2111 claim interpretation, where it is impermissible the importation of subject matter into the claim. Therefore, claim 1 only recites "rounded corners connected to the substrate" and cannot be limited to limitations disclosed in the specification. Thereby, the rejection of claims 1 and 9 based on the cited prior art of Nakamura et al will be maintained and made final.

Regarding applicant's arguments on page pertaining to the ridge and the mesa. Section (33) of figures 1 and 2 is considered a mesa, which includes three ridges as illustrated, where ridge (16) receives current. Thereby, the rejection of claims 1 and 9 will be maintained and made final.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an

Art Unit: 2828

application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 and 9 are rejected under 35 U.S.C. 102(e) as being anticipated by Nakamura et al (US 6,798,807).

Regarding claims 1, 9,

Figures 1 and 2 illustrates semiconductor laser including a mesa (33) having a resonance layer (6), a substrate (2), cladding layers (5) and (7), rounded corners formed by isolation region (32), a current injection ridge (16) and a passivation layer (10).

#### ***Allowable Subject Matter***

Claims 2-8 and 10-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will

Art Unit: 2828

the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
